

# PLATINUM TECHNOLOGY

*The Open Enterprise Management Company*

November 1, 1996

Thanks to Joe and Dave at Asset Liquidation and Sales. They were very helpful in helping us move into our new location. We moved from an older facility into a new fully furnished facility and had to dispose of all our old furniture and some computer systems too. Asset liquidation was instrumental in accomplishing this goal. We received money from asset liquidation for our equipment AND asset liquidation took care of removing the equipment, some of it large, from our old facility. They even help to clean the old facility after they removed the equipment. We are entering into an arrangement with Asset Liquidation where they will purchase all our surplus supplies in the future.

Regards,

Brian Boyer
